EDUCATION

- National Institute Of Technology Andhra Pradesh** *Bachelor of Technology in Electronics and Communication* 2020–2024
CGPA: 8.18
- National Institute Of Technology Andhra Pradesh** *Minor Degree in Software Engineering* 2021–2024
Grade: A
- Sri Chaitanya, Vijayawada** *Intermediate – MPC* 2018–2020
CGPA: 9.88
- Sri Chaitanya, Rajamahendravaram** *Secondary School* 2017–2018
CGPA: 10.00

EXPERIENCE

- TCS - AIG** Jun – Present
Java Spring Batch, .NET, Microsoft SQL Server, Redis, RabbitMQ
 - Developed Java Spring Batch integrations to pull data from APIs exposed by other teams and aggregate it into internal Microsoft SQL Server databases for the Mega HOPEX system, ensuring data synchronization and reliability.
 - Built a .NET web application from scratch with Redis caching to provide fast and efficient data retrieval for internal users, reducing database load and improving response time by 40%.
 - Integrated RabbitMQ as a message broker to enable asynchronous communication and automate email notifications for data quality errors, improving proactive monitoring and reducing manual intervention by 50%.
 - Enhanced system scalability and performance by combining efficient batch jobs, relational database storage (SQL Server), in-memory caching (Redis), and messaging architecture to handle millions of records daily with minimal latency.

PROJECTS

- Bed & Breakfast Booking System** Go, HTML5, JavaScript, CSS, PostgreSQL, RESTful API [Source Code](#)
 - Developed a full-stack reservation platform in Go with real-time availability search, online booking functionality, and secure admin dashboard for managing reservations.
 - Implemented secure authentication, session management, custom middleware, and RESTful APIs following Go best practices for scalable web applications.
 - Built responsive frontend using HTML5, vanilla JavaScript (ES6 modules), and CSS, integrated with PostgreSQL database and deployed to production server.
- Ecommerce Site using Django** HTML, CSS, Django, Python [Source Code](#)
 - Developed a comprehensive Ecommerce Site with essential features such as item search, cart management, order processing, and pagination for seamless navigation.
 - Implemented a user-friendly interface using HTML and CSS, enhancing the overall user experience.
 - Utilized Django ORM for efficient data management, storing details of orders and products.

TECHNICAL SKILLS AND INTERESTS

Languages: Python, Java, C#, Go

Frameworks: Django, Flask, Spring Boot, Entity Core, Requests

Tools and Technologies: Git, Redis, RabbitMQ, HTML, CSS

Cloud / Databases: MySQL, PostgreSQL, MongoDB (Relational Databases)

Libraries: Java Collections

Relevant Coursework: Data Structures and Algorithms, Object Oriented Programming, Database Management Systems, Operating Systems, Signals and Systems, Transmission Lines, Android App Development

Areas of Interest: Competitive Programming, Web Design and Development, App Development

Soft Skills: Problem Solving, Self-Learning, Presentation, Critical Thinking

Software: Android Studio, PyCharm, Visual Studio

CODING PROFILES

Leetcode : [Nagendra2002](#) **Codeforces :** [Nagendravarma](#) **Codechef :** [Nagendra9202230](#)

ACHIEVEMENTS

- Solved more than 3000 data structures and algorithm problems.
- Achieved a global rank of 151 in CodeChef's Starters 105 Division 3 and earned the title of LeetCode Knight, given to the top 5% among 500,000 participants.
- Ranked among the top 2% of students in JEE Mains and top 1% in AP EAMCET.
- Participated in over 150 online coding contests with notable ratings: 1606 (3-star) on CodeChef, 1447 (specialist) on Codeforces, and 1909 on LeetCode.
